

bozkir makina

About Us

BOZKIR Machinery Steel Construction Construction Contracting Tourism Industry and Trade Limited Company, our corporate history dates back to 1983. Our company is active in all branches of the construction industry that require modern engineering, especially in reinforced concrete and steel construction buildings, industrial plants, etc.

Despite the lack of aesthetics and quality in our country, no engineering work has been carried out, BOZKIR MACHINE has successfully completed many building constructions, which started with the design of the building and the applications were carried out with great care. In all the projects undertaken under the contract, there are all applications starting from the manufacturing of the carrier system where the architectural solutions are combined with engineering techniques to the building and decoration.

Our Mission

Our mission is to provide high quality and customer satisfaction services by using the latest technology in the steel industry with our young and dynamic staff, who attach importance to education, constantly improve themselves.

Our Vision

By spreading the quality management approach to production and assembly, zero defects in manufacturing are targeted. In this respect, it is to meet customer demands in the steel construction sector and to improve its customer portfolio by increasing its competitiveness and to gain a place in the steel construction sector abroad.

Our Activity Areas

Since its establishment in the construction and steel sector, the engineering and contracting works of international corporate companies and sector organizations have been successfully completed.

- Shopping Centers and Hypermarkets
- Steel Structures
- Industrial Buildings
- Industrial Plants
- Tanks and Silos
- Prefabricated and Light Steel Structures
- Workshop Buildings
- Factories
- Steel Warehouse Buildings
- hangars
- warehouses
- **6** conveyors
- Pressure Vessels and Boiler Manufacturing
- hyperlinks
- Sheds
- Art structures
- Steel Construction Reinforcement Modification, Maintenance and Repair
 Industrial, Structural Steel Design, Project Design, Manufacturing and Installation

Our Quality Policy

BOZKIR Machine Steel Construction Construction Contracting Tourism Industry and Trade Limited Company quality, your dreams start with us the moment you share. It covers all stages, from the project drawing to the solution of the details, from the solution of the details to the production, from the production to the assembly, from the assembly to the delivery until the moment you see your dreams come true, all the technical equipment and the environment.

Quality is our first and foremost satisfaction of our customers. The meticulous, fast production, trouble-free delivery and solid construction of the work done within the framework of this satisfaction define the concept of quality for us. Our respect for our customers and our interest are other features that make us different.

BOZKIR Machinery Steel Construction Construction Contracting Tourism Industry and Trade Limited Company is aware of its social responsibilities with its latest technology in its modern manufacturer profile, is ready to respond to the expectations of its customers at any time and responds to the quality of production and service provider.

BOZKIR Machinery Steel Construction Construction Contracting Tourism Industry and Trade Limited Company in all activities;

- * Customer satisfaction-oriented work,
- * To strengthen its staff with in-service trainings and to be a technology follower,
- * To cooperate with Ezman staff and suppliers,
- * Keeping occupational health and safety at the forefront,
- * Systematic work and ensure that you encounter solid structures,
- * To be a different, reliable, open to development and future-oriented company

Adopts and acquires purpose.
